STBANK

FEBRUARY 20, 2009

Dear FirstBank Customer:

We have been notified by Visa U.S.A. that a listing of valid Visa card numbers has been obtained by an unauthorized person or persons who gained access to a merchant card processor's transaction database. Your FirstTeller Visa Check Card number was among those that were compromised. Although we believe the possibility of your card being used for fraudulent transactions is minimal, we are going to issue you a new card which you should receive by 03/05/2009.

Effective 03/10/2009, your existing FirstTeller Card, ending in [REDACTED], will no longer work. If you have not received a new card by 03/05/2009, please notify us. Any recurring payments that you have scheduled with your existing FirstTeller Card will need to be transferred to your new card.

FirstBank is committed to fighting card fraud. We continually monitor ATM and check card transactions to detect suspicious activity. In the event that fraudulent card activity does occur, our zero liability policy ensures you are not responsible for any of the charges.

We apologize for any inconvenience this situation may cause you. We would also like to reassure you that the compromise of this information did not occur at FirstBank, and therefore your account information at FirstBank has not been obtained by the unauthorized individual(s).

If you have any questions concerning this letter, please call us at (303) 237-5000 or 1-800-964-3444 if you are outside metro Denver.

Sincerely,

Lauren Cheng
Banking Officer
