Subject: Notification of Possible Information Compromise

Ladies and Gentlemen:

On behalf of Shoshone First Bank, the main office of which is at 1401 Sheridan Avenue, Cody, Wyoming 82414, I am notifying you of a possible information compromise affecting residents of Maryland.

On July 30, 2008, a back-up computer tape containing name, account numbers and Social Security numbers of forty-five (45) residents of Maryland was lost in transit. We have no reason to believe that the data on the tape have been accessed, and since specialized equipment is required to read the tape, we believe that the risk of misuse is low. Nevertheless, we are notifying the affected individuals and providing them with free credit monitoring for a year. I have enclosed a sample of the correspondence that we sent.

Sincerely,

Amy B. Lovell

### Important Information from Shoshone First Bank

Dear Customer:

At Shoshone First Bank we value the relationship we have with you and the trust you have in us. Regretfully, we have learned that a bag containing a data tape, which had information about you and your Shoshone First Bank account(s) on it, was lost while being transported between processing sites. The tape included your name, address, Social Security number and information, including account numbers, about your current Shoshone First Bank accounts and any Shoshone First Bank accounts you have closed since June 2005.

As soon as we learned that the bag did not arrive at its destination, we immediately contacted law enforcement and began our own thorough investigation. Because we believe the lost bag may have been discarded and because special equipment is needed to retrieve the tape's contents, it is highly unlikely that your information will be misused. Nevertheless, we continue to work with the authorities to locate the bag and tape.

At this time there is no indication that your information has been misused, but we encourage you to take the steps outlined in this letter and enclosed information sheet to reduce any potential risk to you.

## Steps you can take to safeguard your personal information

To protect against the misuse of your personal information, we recommend that you consider placing a security alert on your credit bureau file. We recommend that if you are enrolling in a credit monitoring service, such as Identity Guard® CreditProtectX3<sup>SM</sup>, you enroll in the monitoring service prior to placing the security alert. Please be advised that placing the security alert first may delay establishing monitoring services.

A security alert marker would cause any issuer of credit to use additional scrutiny for any request for new or increased credit. This provides a significant layer of protection; however, it may limit your ability to get "instant credit" such as the offers often available at retail stores. You must contact one of the credit bureaus, below, directly to request this alert.

- Do not use any part of your Social Security number as passwords.
- Consider changing your Shoshone First Bank online banking password by calling Shoshone First Bank or visiting any Shoshone First Bank location.
- Information regarding steps you can take to protect against identity theft is available from the Federal Trade Commission at [www.consumer.gov/idtheft](http://www.consumer.gov/idtheft).
